

CHICAGO AJT CONFERENCE CALLED ONE OF THE BEST EVER

The conference, for me, was completely enlightening. As a Jewish actor and producer living and working in New York City, I had absolutely no idea that such a vibrant, intelligent, progressive and passionate community of Jewish Theatre existed across America. I was also inspired by the enthusiastic response I received from members interested in my new non-profit organization, Broadway In South Africa. I made some great contacts and I'm excited for future collaboration with my newfound fellow artists. I'm also excited to visit some of these amazing theaters across the United States and Canada. - Adam Kantor (Northwestern graduate and Broadway actor)

Other comments about the conference:

I thought you guys did a marvelous job organizing, making people feel included and welcome, working to build contacts between us and the Chicago theater community, and in general bringing out the best of Jewish values. As a first-timer to the conference, I was quite impressed, and would definitely come back! - Daniel Levin (New York Playwright of *To Paint the Earth*)

Just a note to tell everyone how great it was to be in Chicago at the conference in November. Having missed last year's conference, it was especially sweet to see all of my colleagues, fellow producers, playwrights, solo artists, etc. The conference was extremely well planned and organized with something for everyone. The ShPleL SHOWCASE was a wonderful example of some of the new work out there, as was the playwrights forum. The sessions were very well orchestrated. And it was wonderful to go to a conference and actually have some down time built in. We also had the opportunity to sample some of the vibrancy of Chicago theatre at reduced rates. A shout out to all of my colleagues who were in Chicago and to those of you who missed, it was great fun!! Oh and also very rewarding—Kathleen Sitzer (Artistic Director, New Jewish Theatre, St. Louis)

I enrolled and felt inspired, I think that with the right approach these AJT conferences might grow to something even bigger.
